

# ABISHKAR DHENGA

---

## FullStack Developer

Rupandehi 4 Nepal | 9748703164 | Aabiskardhenga29@gmail.com | [Github](#) | [Linkedin](#)

## ABOUT ME

---

I'm a Full Stack Developer with a strong focus on frontend development, experienced in building modern, responsive interfaces using React.js, Chakra UI, Acertinity UI, Zustand, and TanStack Query. I adapt quickly to new technologies and can switch between stacks with ease, making me a flexible and reliable contributor in any development environment.

## WORK EXPERIENCE:

---

### Socially - Frontend Developer

- Designed and developed reusable, responsive UI components using Chakra UI, ensuring a consistent and accessible design system.
- Integrated API data efficiently using TanStack Query, optimizing state management and API caching for smoother user experience.
- Utilized Zustand for local/global state management, improving performance and simplifying component logic.

### Hyperce - Frontend Developer

- Developed and maintained frontend using React & GraphQL
- Integrated OAuth in e-commerce projects to streamline user authentication
- Collaborated cross-functionally with backend and product teams

## PROJECTS:

---

### Socially - Sass Web Product

[Live Link](#)

- Developed and maintained the frontend interface using React.js, styled with Chakra UI
- Managed application state efficiently using Zustand and handled server communication with TanStack Query.
- Contributed to real-time content scheduling and multi-platform publishing features across social media networks.

### Buddy - Mobile App

- Built a React Native app using Expo, integrating NativeWind and Appwrite for backend services.
- Implemented video and image uploads, CRUD operations

## EDUCATION:

---

2079 - 2083 | Tribhuvan University

Bachelor of computer Application

## SKILLS:

---

- React.js, React Native, Node.js, Firebase, GraphQL, MERN
- Solana, Anchor, Blockchain
